

Balloons!

The world just got smaller.

Welcome to Balloons! Lite, the most adventurous iPhone app ever!

Balloons! Lite is the great fun app that enables you to release virtual helium balloons into the sky and catch the balloons of others

Where will they go?

Who will they meet?

How far will they travel?

By putting your twitter name on your balloon tag people can tweet you when they catch your balloon!

Scan the sky and catch the balloons of others. Add your own message tag and release them back, high into the air, to travel to who knows where?

Balloons! Lite - the environmentally friendly alternative to a real helium balloon launch.

Price: **Free**

LITE

Features

Launching Balloons

- Choose from 7 colorful balloons
- Write your name on the balloons' virtual tag (use your twitter id if you want people to contact you!)
- Then take a photo and write a message
- Launch the balloon into the air and watch it fly away

Catching Balloons

- Scan the sky for balloons flying past your location
- Pick one from the sky at random
- Read the tag(s) attached to the balloon
- Add your own tag and release the balloon back into the sky
